

Amendments to the Drawings

In Figure 1:

Add 100 with arrow pointing to overall figure.

Add 110 with connector to box labeled “convolution encoder ($K=7$)”.

Add 120 with connector to box labeled “bit interleaver matrix”.

Add 130 with connector to box labeled “mapper”.

In Figure 2:

Add 200 with arrow pointing to overall figure.

Add 210 with connector to box labeled “score calculation unit”.

Add 220 with connector to box labeled “bit deinterleaver matrix”.

Add 230 with connector to box labeled “Viterbi algorithm unit”.

In Figure 3, add 300 with arrow pointing to overall figure.

In Figure 6:

Add 610 with connector to box labeled “convolution encoder”.

In Figure 7:

Add 700 with arrow pointing to overall figure.

Add 710 with bracket pointing out the row of the matrix.

Add 720 with connector to “READ”.
